- Business Name:
- Contact Information:
- Location:

Equipment Information for the Non-Acadia router.

Router Model:

- Administrator Username:
- Administrator Password:
- Confirmation of IPv6 Disabled Status:

Acknowledgment and Waiver

1. Network Management and Monitoring Limitations
 - Acknowledge that by opting to use their own networking equipment, the customer limits Acadia POS's ability to monitor and manage network-connected devices.
2. Limited Support and Troubleshooting
 - Agree that Acadia POS cannot provide the same level of support, including but not limited to cellular failover services and real-time troubleshooting, as with Acadia-provided routers.
3. Impact on Customer Experience
 - Understand that using non-Acadia networking equipment may negatively impact the overall effectiveness of the POS system, leading to potential operational disruptions.
4. Liability and Ownership
 - Accept that Acadia POS is not responsible for any network-related issues arising from the use of customer-provided equipment.
 - Agree that the customer assumes full responsibility for any operational inefficiencies or system failures associated with such equipment.
